

TALO Education and Social Development Report for the project activities Supported by PGPF

Executive Summary

Somalia lays horn of Africa where successive years of civil war affected socioeconomic infrastructures which is the main basic sources for human development. Consequently, all livelihoods groups in Somalia were affected by conflict and drought. The famine has declared in Bakool, Bay, Lower Shebelle, Middle Shebelle Afgoye Corridor IDP settlement and Mogadishu IDP community all in South Central Somalia regions. The United Nation Office of Humanitarian Affairs, FSNAU warned that the situation could deteriorate in lack of major scale - up in humanitarians' accessibilities including education is one of the factors that was destroyed by the civil war public schools were looted and the educational materials were devastated due to civil war and fighting sides Somalia troops pro African Union and the other side were militia militants Al -Shabab which backed by other Arabish networks. All these institutional educational systems were being misled and most of Somalia youth recruited as soldiers joined the both groups while some other children were displaced their original homes these frustration created major disaster although education is the key of the live and the backbones of social knowledge in Somalia. For that reasons TALO organization were established voluntary community schools which TALO contributed to raise public awareness and train the young Somalis students freely and TALO provides for the emergency schools in IDP's champs free educational materials and trains the schools teachers in order to motivate the educator that will enhance the morality of the teacher and TALO allocated some per diems and free refreshment breakfast and lunch which all the participants allowed to eat per day schooled workshops for the attendance and the lectures of the seminar .

Project Title: Restore Emergency Education Support opportunity for Drought Affected Pastoralist in Banadir region.

Purpose of the Project:

TALO targeted 1000 householder families provide immediate emergency education life-saving assistance to the people living in Mogadishu IDP's needed essential humanitarian aid in emergency education, and distributed education kids.

The Goal of the Project:

Accessibility in equally opportunity in emergency education and life-saving assistance to the IDP's community and venerable people in Somalia.

The Objectives:

- ❖ To support an existing emergency schools in ID's camps in Banadir and Afgoye Corridor.
- ❖ Provision of 1000householder families in emergency education essential kids and Martials.

The project activates:

During the project implementation TALO field team have successfully completed the project activates and the major findings of the report including that the young children in emergency schools in Banadir satisfied the distribution of students material some of them told us that the students were difficult availability of school kids and the families were also provided some clothes for their school uniforms and dry food to help their children during school breakfast most of the camp leaders and their teachers were happy to get support. TALO activities also training for the teachers to motivate their teaching

The Challenges:

The challenges of the activities including the number of the school emergency in Banadir and Afgoye are more number of schools and the educational networks requested TALO to extend the project of provide immediate emergency education life-saving in Mogadishu and Afgoye corridors IDP's camp and the number of the teachers participants workshop training capacity building which will motivate the teachers their work and refreshment of seminar per diem rates.

Recommendation:

TALO organization will recommend contributing the educational activities projects due to number of IDP's camp, and vulnerable people in Benazir and Afgoye are highly requested this project and there is an insufficiency of children support of their school kids and uniform clothes provision while most of the people lives in the IDP's camps could not have enough money to buy school kid and students materials since their parents looks for food and work and how their children will survive them.

Conclusion:

TALO organize this report that every organization interests to support this project will welcome and contribute the availability of this project activities implementation and TALO team in the field will openly welcome those are in outside of the country.
