

THE GLOBAL FUND

Outreach: HIV/Aids Awareness Rising Campaign Report: Implemented by TALO-Somalia

Executive Summary

Somalia is a country that has open boundaries with Ethiopia, Kenya and Djibouti and the neighboring countries have affected HIV/AIDS and most of Somalia people were fled to these countries to survive the civil war in Somalia for that reason many people back to their original countries with positive HIV/AIDS and the number of infected HIV/AIDS was high among the virus was new to the Somalia population and discriminated the positive people and the people living with HIV/AIDS in Somalia for that reason TALO organization was established to give awareness and train the Somalia communities how to prevent HIV/AIDS and how it can be transmitted the virus.

TALO Organization is based in Mogadishu and dedicated to limit HIV/AIDS and eradicate sexual transmitted infections (STIs) and female genital mutilation (FGM) in Somali communities.

TALO organization is not a non-governmental, or political and not profit making. the establishment of this organization emerged due to overall unstable situation in the country, Since Teenagers were among the most affected and infected of HIV/AIDS and most vulnerable to this Virus.

This organizational development assessment is a component of GFATM Strengthen Civil Society in Somalia (SOCSIS) and was done to examine and determine where the organization stands in its organizational development, the assessment is part of Oxfam Novib and Global Fund year 3 partnerships on HIV/AIDS. Furthermore the assessment was intended to review seven areas of the NGO's organizational development that are; Governance, Management Practice, Human Resource, Financial Resources, Service Delivery, External Relations and Sustainability.

TALO member and staff has participated the capacity building and TALO has implemented phase 2 and Phase 3 on outreach HIV/AIDS awareness project funded by Global fund, Oxfam Novib and TALO had contributed these projects successfully implemented in Mogadishu-Somalia.

Project title: Outreach HIV/Aids Awareness Rising Campaign

Lead executing agency: Global Fund, UNICEF and Oxfam Novib

Location: Somalia Middle Shabelle region and Benadir region

1.1 Goal and objectives

The goal of project is to strengthen and high light the awareness of AIDS pandemic and the same time promote the rights of women and orphans, through capacity building.

1.2 objectives

Our specific objectives are as follows:

1. To increase the community awareness of HIV/AIDS, STDs and STIs.
2. To fight against female genital mutilation.
3. To empower women to foster their rights.
4. To strengthen early childhood education for children Orphaned by and hive/Aids and the civil war and community mobilize the risk of virus and the key strategies of prevention the spread of hiv/aids and other STD and STIs.

The Project Approaches:

During the project approaches TALO organisation were followed the project work plan which were guided the implementation cycle including World Aids Day, production and distribution of IEC material, production of hiv7Aids Manuals ,and reporting system and documentation the project approaches also including participation of local media ,journalists and debates between the communities and other opposite people of the project since Somalis population were not believe the existing this hiv/aids many of the societies have traditional culture and most of them used homemade medicines in order to prevent this virus.

Project challenges:

The most of challenges of this project was difficult how to show the communities the people live with hiv/Aids and its risks because security of the PLWA since TALO aware of a number of people positive with hiv/aids inside the communities and showing the communities the positive people will bring us discrimination for the project and for the personal privacy,

Recommendation:

TALO organization will recommended that the number of positive is high and the community needs awareness and training of the risk of hiv/Aids in order to minimize its spread out and risks in the host communities mostly vulnerable to acquired hiv/Aids

Conclusion:

TALO conclusion

TALO training facilitators were suggested and strongly recommended that the Somalia communities would like to increase the hiv/Aids awareness rising campaign while most of the Somalis were believed myths and homemade medicines which the population may be used to protect the spread of hiv/Aids for that reason and the most of them do not understand the ways that the virus pandemic reach out and affects the societies in Somalia

Here is annex of the list of the participants some of them, though the project is a large we would not able to attach here all the project activities but here ere project list of the attendances and some of photo group and TALO organization would send you if you are interested more than these reports for more information contact us info@talosom.org www.talosom.org

12:00	Lunch time – end	

During the training the organization distributed important HIV/AIDS message and presented exhibition materials & displayed other IEC materials at the training. The organization also invited the local media to disseminate information regarding its activities

Lessons Leant

Teenagers Aids Limit Organization TALO has find out that Somalia community need to increase HIV/AIDS Awareness workshops in order to persuade the risk of hiv/aids in Somalia societies while some of the community against the existence of this disease and pointed out this disease is myths created among the community and misleading Somalia society so TALO is recommending increase like these awareness workshops as to survive the ignorant ones in the community of Somalia

Future Recommendations (lessons learnt and recommendations for future events)

Recommendation

Teenagers Aids Limit Organization TALO is recommending that there is need to enhance community understanding of hiv/aids thus many people don't belief the existence of hiv/aids in Somalia so TALO is recommending to increase awareness workshop training and large the prevention campaign in Somalia in order to survive millions of Somalia society

(Information collected on these forms should be summarized in your quarterly report and copies of this form and other documentation such as photos, reports, evaluations etc should also be attached to your quarterly report)

During the training the organization distributed important HIV/AIDS message and presented exhibition materials & displayed other IEC materials at the training. The organization also invited the local media to disseminate information regarding its activities

Lessons Leant

Teenagers Aids Limit Organization TALO has find out that Somalia community need to increase HIV/AIDS Awareness workshops in order to persuade the risk of hiv/aids in Somalia societies while some of the community against the existence of this disease and pointed out this disease is myths created among the community and misleading Somalia society so TALO is recommending increase like these awareness workshops as to survive the ignorant ones in the community of Somalia

Future Recommendations (lessons learnt and recommendations for future events)

Recommendation

Teenagers Aids Limit Organization TALO is recommending that there is need to enhance community understanding of hiv/aids thus many people don't belief the existence of hiv/aids in Somalia so TALO is recommending to increase awareness workshop training and large the prevention campaign in Somalia in order to survive millions of Somalia society
